

Dear sir/madam:

My name is Jason Canales, I am attending Buttonwood Bay Nazarene Primary School in Belize City. I am ten years old. I like to play football and I like to swim.

In 2014, my first year of swimming, I was very afraid but I learnt the skills that Mr. Godoy taught me and quickly learnt to swim. I competed in the short distance swimming race but did not win. However, I was still happy because I advanced in my swimming. I even won a trophy for the most "Improve Swimmer." Last year 2015, my other swimming instructor taught me more skills and I entered the long distance race and came in third place.

I know that the program should continue because it could teach children to swim who in turn can teach other children to swim. Swimming is important because if someone is drowning you could go and save them. If God wants this program to continue it will continue.

Sincerely yours,
Jason Canales
